

Making a *difference* in our community- that is what the Mental Health Association is all about. How we make a *difference* varies for each individual depending on the needs they bring to the organization, which door they enter through and their hope and goals for a “*different tomorrow*”. A weekly senior companion visit to end loneliness for an isolated senior; helping a person with serious mental illness go back to work or get a new job; a breakthrough in therapy or substance abuse services; or the friendly face of a caring mentor. These are just snapshots of the ways that MHA programs make a *difference* to individuals, in turn making our community a better place to live.

In 2014 we continued to make a *difference* through current initiatives that reached more than 11,000 individuals, as well as adding projects needed in our community. Here are some of our highlights:

- Two new apartment complexes opened to house vulnerable populations and low income seniors;
- Implemented a program to help fathers who are in arrears with child support payments to achieve self-sufficiency;
- Added Health Home services which provide comprehensive coordination services designed to improve the health of individuals with serious mental illness.

We couldn't do this work without our wonderful staff, Board of Directors, volunteers and donors. We invite you to join us - it's never too late to make a *difference*.

2014 ANNUAL REPORT

We do not wait until we are in Stage 4 crisis to treat Cancer, Diabetes or Heart Disease; why would we wait until Stage 4 crisis to treat Mental Illness?

#B4Stage4

Empowering and assisting youth, families and adults in our community to achieve optimal mental health and wellness through education, advocacy and service.
